almost any one who will use system y the remedy that has permanently cure ands, SINMONS' LIVER RESULATOR, is tic violent purge, but a gentle assi-CONSTIPATION SHOULD not be regarded as a triffing animent—in fact

nature demands the utmost regularity of the bowels

regularity of the boweis, and any deviation from this demand paves the way often to serious danger. It is quite necessary to remove impure accumulations from the boweis as it is to eat or sieep, and no health can be expected where a costive habit of body prevails. SICK HEADACHE! This distressing affliction occurs most frequently. The disturbance of the stomach, arising from the importectly digested contents, causes a severe pain in the head, accompanied with disagreable nausea, and this constitutes what is popularly known as Sick Headache. For the relief of which,

ted to the close observation of the following maxims, originated by himself: Make your fences high and strong, so they will keep cattle and pigs out. If you -Crude carbolic acid mixed with sixty have brush make your lots strong and se-Be sure to get hands to bed by 7 o'clock; they will rise early by force of circum

Pay a hand, if he is a poor hand, all you promise, and if he is a good one pay him a little more; it will encourage him to do still better.

Always feed your hands as well as you feed yourselves, for the laboring men are the bone and sinew of the land, and ought to be

I am satisfied that getting up early, industry and regular habits are the best med cine prescribed for health. When rainy, bad weather comes so yo san't work out of doors, cut, split and pile your wood, make your racks and fix your

fences or gates. The Kind of Things to Kill. Golden Rule.

The French minister of finance has caus proved the fact that an acre of corn fodder, ed a placard to be posted, which it would ing the season of growth, absorbs from be wise for citizens of all countries to have before their eyes. Hedgehog - Lives on mice, small rodents slugs, and grubs, -animals hurtful to agri-Don't kill the hedgehog. Toad-Farm assistant; destroys from wenty to thirty insects an hour. Don't

kill the toad Mole-Is continually destroying grubs in cattle. The subject occupies a prominent larvæ, palmer-worms, and insects injuriou to agriculture. No trace of vegatation ever found in its stomach. Does more good May-Bug and its Larve or Grub - Mortal them victoriously. They are the great

caterpillar-killers and agricultural tants. Children, don't disturb their nests Roots Cannot Compete With Corn. [Prairie Farmer, 1.] As a rule, in the West, roots cannot be raised for feeding. Roots cannot compete with corn, in the corn region of the West,

pungent odor, which is by this means or in all that region where corn may be evolved, makes sufficiently evident. deed, in all the true corn districts of the West, beets may be profitably raised; not for their value as flesh and fat formers, because, corn can be more cheaply produced than root crops; but for their winter feeding, as an auxiliary fed in con nection with corn, they stand in the place of other succulent food which animals ge in summer.

An Old Method of Getting Rid Hats. [Prairie Farmer, L] What is called "the Dutch way with rats," is this: A number of rats are left to then elves in a very large trap or cage, with n food whatever. Their craving h cause them to fight, and the weakest will be eaten by the strongest. After a short time the fight is renewed, and the next weakes state nikely to absorb the infection; nor vis-it a sick person if the complaint be of a it a sick person if the complaint be of a the last remains of the others it is let loose. The animal has now acquired such a taste for rat flesh that he is the terror of all ratdom, going about seeking what rat he may

> which will not come back before the can nibal rat has left or died. Taste in the Selection of Colors.

[Prairie Farmer, I.] The public taste in flowers, as in fruitwill destroy all the bugs. They eat them animals and dress, is undoubtedly generally NEW YORK MONEY MARKET

cally the lighter colored fruits may be far better to the taste. In flowers, however, there are but two things to be considered, elegance in shape and color, and perfame.

In nine cases out of ten, except among educated tastes, the massess of bloom will be found to be compressed about actions. be found to be composed almost entirely of NEW YORK PRODUCE MARKET-blue, red and yellow. The more tender be lound to be compared by the first of the

Melophagus Ovinus, or Sometimes

Called Sheep Ticks. [Kansas Farmer.] These insects are distinguished by their flattened and somewhat horny bodies, the horizontal, flattened head, which is received into the front part of the thorax, and the rudimentary antennae. Some of them pos-sess wings, but others have these members aborted, or are entirely without them, as in the case of the sheep tick. The front part of the body of this species is unusually small; the head is somewhat wider than the thorax, which is very narrow; the mouth or proboscis is as long as the head; the limbs are short and thick, and the abdomen, "which is broad and hairy, is not divided into rings, as that of flies usually is." It is of a pale, reddish color; the ab-domen is lighter, with an irregular white

line along each side and a red spot on the The mode of reproduction in these flies is very singular and unusual. They pro-duce neither eggs nor larva; the egg-duct or tube has an enlargement which produc-es a milk-like secretion for the nourishment of the larva or young maggot; the eggfor they usually give birth to but one or two young-passes from the ovary to this enlargement and hatches into a larva, is nourished here during this stage of existence upon the milk-like fluid before alluded to, until it passes into the pupa or chrysalis state at which time it leaves the body of the parent. Instead, therefore, of producing eggs or larva, they produce pupa. Therefore, strange as it may seem, we see in this very low type of animal life a somewhat close imitation of the method of reproduction observed in the higher animals.

Rules for Improvement of the Dairy. [Husbandman] Look well to the milking qualities your cows; keep none but the best. See that they have the best of milk pro-

people, a horse being led by John Adrain, a trainer at the race track, jerked himself loose at the corner of Fifth and Delaware streets and darted through the crowd, throwing his heels in all directions. There was a general stambaged amongs the pedestrains, but strange to Pela's, none were injured.

NERVOUS DEBILITY

Vital Weakness or Depression; a weak exhausted feeling, no energy or courage; the result of Montal Over-work. Indiscretions or elegants at the circus. The fine was suddentially the police arrosted a man who gave his name as Frank Envoy, claiming to be attached to the station house begged to be allowed to to. He station house begged to the allowed and lying in the Union Depot, watching the circus, who had been to the station house begged to the allowed and him. He will be heard this morning.

The Contaur Liniments are of two The Montal States and the content of the power of the consistency of honey. Keep the did is lost in the mixture; when it the liquid is lost in the mixture, when it the liquid is lost in the mixture, when it the liquid is lost in the mixture, when it the liquid is lost in the mixture, when it the liquid is lost in the mixture, when it the liquid is lost in the mixture, when it the liquid is lost in the mixture, when it the liquid is lost in the mixture, when it the liquid is lost in the mixture, when it the liquid is lost in the mixture, when it the liquid is lost in the mixture, when it the liquid is lost in the mixture; when it the liquid is lost in the mixture; when it the liquid is lost in the mixture; when it the liquid is lost in the mixture; when it the liquid is lost in the mixture; when it the liquid is lost in the mixture; when it the liquid is lost in the mixture; when it the liquid is lost in the mixture; when it the liquid is lost in the mixture; when it the liquid is lost in the mixture; when it went when a proposition of the second with in the mixture is too hold.
